Dom,

Regarding what was presented to the House E&E majority subcommittee by USGS. Here is a copy of the presentation as well as speaker notes we received. Ayn sent them to me. I provided some comments back to her, but don't know if GS made any edits. This is all I have. I don't have a copy of testimony, and not sure if there was any because the briefing was only for the majority members.

(Rick - Just an FYI; wanted to make sure you had seen these docs)
